

ADJOVI LEMBILA AKPAKI

TRUST & SAFETY | INTEGRITY OPERATIONS | DATA ANALYTICS | RISK OPERATIONS

Denver Metro, CO | 402-906-2907 | adjovig38@gmail.com | U.S. Citizen | French & English | Open to Relocate

PROFESSIONAL SUMMARY

Trust & Safety, risk operations, and data analytics professional with experience supporting high-volume operational workflows, resolving escalations, validating data, maintaining quality and compliance standards, and improving reporting visibility. Advanced Excel and SQL skills with hands-on experience in Python, Power BI, Tableau, KPI tracking, audit-ready documentation, and responsible AI/data science workflows. Strong fit for integrity operations, operational quality, abuse-trend analysis, and scalable process improvement.

CORE QUALIFICATIONS

Integrity & Trust Operations: Trust & Safety, risk operations, compliance, high-volume case review

Escalation Management: Cross-functional issue resolution, case documentation, follow-through

Operational Quality: Quality standards, data validation, discrepancy analysis, audit readiness

Workflow Improvement: Process analysis, KPI visibility, reporting tools, consistency improvements

Data & Reporting: Advanced Excel, SQL, Power BI, Tableau, dashboards, KPI reporting

Project / Operations Support: Project planning, WBS, scheduling, forecasting support, documentation

Analytics & AI: Python, pandas, scikit-learn, NLP, classification, responsible AI

Collaboration: Cross-functional teams, stakeholders, vendors, business operations

PROFESSIONAL EXPERIENCE

Risk Operations Analyst | Walmart

Remote | Feb 2026 - Present

- Analyze approximately 89-150 seller accounts per day while meeting quality, productivity, and documentation requirements in a high-volume risk environment.
- Review structured account information and operational trends to support consistent risk decisions and identify process-improvement opportunities.
- Coordinate with cross-functional teams to resolve operational issues, maintain accurate case documentation, and support reliable reporting.

Trust & Safety / Operations Analyst | Accenture (LinkedIn)

Omaha, NE | Jun 2022 - Jun 2025

- Analyzed high-volume operational workflows and account activity while maintaining strong compliance, quality, and accuracy standards.
- Managed and helped resolve escalations across business teams, correcting data issues and driving cases toward consistent operational outcomes.
- Developed advanced Excel trackers and reporting dashboards that improved visibility into workflow status, KPIs, and operational performance.
- Supported process consistency through documentation, data review, issue identification, and cross-functional collaboration in a Trust & Safety environment.

Billing & Financial Operations / AP & AR Support | Fiserv

Omaha, NE | Aug 2023 - Jun 2024

- Supported invoice processing, billing, reconciliation, approvals, and financial documentation under internal controls.
- Performed data validation and discrepancy analysis to improve reporting accuracy and month-end readiness.
- Worked with internal teams and vendors to resolve billing issues and maintain organized, audit-ready records.

Compliance & Fraud Analyst | Rentokil North America

Omaha, NE | Feb 2023 - Aug 2023

- Reviewed operational and financial records for compliance, accuracy, completeness, and potential risk indicators.
- Identified data-quality issues, maintained audit-ready documentation, and contributed to process improvements that reduced rework.

Loan Processor | Check Into Cash

Omaha, NE | Jan 2019 - May 2022

- Processed loan applications and verified customer identity, financial information, eligibility requirements, and supporting documentation.
- Supported account inquiries, payment questions, transaction processing, confidentiality requirements, and daily reporting.

TECHNICAL & ANALYTICAL SKILLS

Operations & Integrity: Trust & Safety, risk operations, compliance, fraud analysis, escalation support, process improvement, documentation, audit readiness

Data & BI: Advanced Excel (PivotTables, XLOOKUP/VLOOKUP, Power Query), SQL, Power BI, Tableau, dashboards, KPI reporting

Data Science & AI: Python, pandas, NumPy, scikit-learn, TensorFlow/Keras, NLP/sentiment analysis, classification, regression, feature engineering, model evaluation, responsible AI

Project Controls: Primavera P6, project planning, WBS, scheduling, EVM, forecasting support

Methods: EDA, data cleaning, cross-validation, class-imbalance analysis, PCA, recommender systems, CNNs, forecasting

SELECTED DATA & AI PROJECTS

- **Credit Card Fraud Detection** - Analyzed 339,607 transactions with severe class imbalance; engineered transaction-time, age, and geographic-distance features and compared Logistic Regression and Random Forest using ROC-AUC, PR-AUC, precision, recall, and F1.
- **IMDB Sentiment Analysis** - Applied natural-language processing and sentiment classification techniques to movie-review text, demonstrating text analytics relevant to content and abuse-pattern analysis.
- **Netflix Mature Content Prediction** - Performed exploratory analysis, feature preparation, classification modeling, and model evaluation to study factors associated with mature-content labels.
- **Employee Attrition Prediction** - Built and evaluated Logistic Regression, Decision Tree, and Random Forest models and translated feature importance and model metrics into business-focused recommendations.
- **Recommendation System** - Prepared user-rating data and developed a recommendation-system workflow to analyze user preferences and generate data-driven recommendations.
- **MNIST Handwritten Digit CNN** - Developed a convolutional neural network workflow for image classification, including data preparation, model training, and performance evaluation.

EDUCATION

Arizona State University - Master of Science, Construction Management | *Expected Aug 2027*

Bellevue University - Master of Science, Data Science | *Expected Aug 2026*

University of Nebraska at Omaha - Bachelor of Science, Business Administration | *Dec 2024*

Metropolitan Community College - Associate of Applied Science, Accounting (Honors)

CERTIFICATIONS & TRAINING

Oracle Primavera PPM Professional • Oracle Primavera P6 - Project Setup & Basic Management • Advanced Scheduling & Project Optimization in Primavera P6 • CompTIA CySA+ • Financial Markets • HR Data Management Systems

ADDITIONAL STRENGTHS

Bilingual French/English • High-volume case analysis • Cross-functional collaboration • Business-focused data storytelling • Responsible AI and model ethics • Documentation and audit readiness
